INDEPENDENT AUDITOR’S REPORT TO THE SHAREHOLDERS OF WAFRA INTERNATIONAL INVESTMENT COMPANY K.S.C. (CLOSED)

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Wafra International Investment Company K.S.C. (Closed) (the “Parent Company”) and its subsidiary (collectively “the Group”), which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards, as adopted by the Central Bank of Kuwait (“CBK”) for use by the State of Kuwait.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants’ *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards as adopted by CBK for use by the State of Kuwait and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group’s financial reporting process.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF WAFRA INTERNATIONAL INVESTMENT COMPANY K.S.C. (CLOSED) (continued)

Report on the Audit of Consolidated Financial Statements (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ▶ Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF WAFRA INTERNATIONAL INVESTMENT COMPANY K.S.C. (CLOSED) (continued)

Report on the Audit of Consolidated Financial Statements (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Furthermore, in our opinion proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's Board of Directors relating to these consolidated financial statements, are in accordance therewith. We further report that, we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the Companies Law No.1 of 2016, as amended, and its executive regulations, as amended, and by the Parent Company's Memorandum of Incorporation and Articles of Association, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies Law No.1 of 2016, as amended, and its executive regulations, as amended, nor of the Parent Company's Memorandum of Incorporation and Articles of Association have occurred during the year ended 31 December 2025 that might have had a material effect on the business of the Parent Company or on its financial position.

We further report that, during the course of our audit, we have not become aware of any violations of the provisions of Law No 32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organisation of banking business, and its related regulations, or of the provisions of Law No. 7 of 2010 concerning establishment of Capital Markets Authority "CMA" and organization of security activity and its executive regulations, as amended, during the year ended 31 December 2025 that might have had a material effect on the business of the Parent Company or on its financial position.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2025

1 CORPORATE INFORMATION

The consolidated financial statements of Wafra International Investment Company K.S.C. (Closed) (the “Parent Company”) and subsidiary (collectively, the “Group”) were authorised for issue by the Board of Directors on 4 February 2026 and the shareholders of the Parent Company have the power to amend these consolidated financial statements at the annual general assembly meeting (AGM).

The Parent Company is a closed Kuwaiti shareholding company incorporated and domiciled in Kuwait. The registered address of the Parent Company is Al- Murqab – Abdulla Al-Mubark Street block 1 – Avenue # 800012 – Twin Tower - P.O. Box 27635, Safat 13137, State of Kuwait.

The Parent Company’s primary objectives are as follows:

1. Investment in the real estate, industrial, agricultural fields, and other economic industries through contributing to incorporation of specialised entities, or subscription of the shares of these entities.
2. Transactions related to trading securities including, sale or purchase shares and bonds of Governmental companies and institutions that are only for the benefit of the Company.
3. Conducting the function of investment trustees, and investment portfolio management for others.
4. Mediation in lending and borrowing transactions for commission or fees; for the interest of the Company or for others.
5. Financing and brokerage in the international trade transactions.
6. Provision of research, studies, and other technical services related to the investment operations, and employment of the funds of others.
7. Establishment and management of mutual funds in accordance with the related Laws.
8. Conducting the functions of issuance managers for bonds issued by companies and institutions.

The Parent Company is wholly owned by The Public Institution for Social Security (PIFSS) (the “Ultimate Parent Company”). The Parent Company is regulated by the Central Bank of Kuwait (CBK) and the Capital Markets Authority (CMA) as a finance and investment company, respectively.

Details of the subsidiary is given in note 2.4.

2.1 BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with the regulations for financial services institutions as issued by the Central Bank of Kuwait (CBK) in the State of Kuwait. These regulations require banks and other financial institutions regulated by CBK to adopt the IFRS Accounting Standards with an amendment for measuring the expected credit loss (“ECL”) on credit facilities at the higher of ECL computed under IFRS 9 – ‘Financial Instruments’ in accordance to the CBK guidelines or the provisions as required by CBK instructions along with its consequent impact on related disclosures.

The above framework is hereinafter referred to as “*IFRS Accounting Standards as adopted by CBK for use in the State of Kuwait*”.

The consolidated financial statements have been prepared on a historical cost basis, except for financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income that have been measured at fair value.

The consolidated financial statements are presented in Kuwaiti Dinars (“KD”), which is also the functional currency of the Group.

The Group presents its consolidated statement of financial position in order of liquidity. An analysis in respect of recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 22.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies adopted in the preparation of these consolidated financial statements are consistent with those used in the previous financial year, except for the adoption of new standards effective as of 1 January 2025. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

2.2.1 New standards, interpretations, and amendments adopted by the Group

The Group applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2025 (unless otherwise stated). The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Lack of Exchangeability (Amendments to IAS 21)

For annual reporting periods beginning on or after 1 January 2025, *Lack of Exchangeability – Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates* specifies how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of an entity's financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

This amendment did not have a material impact on the Group's consolidated financial statements.

Other amendments to IFRS Accounting Standards which are effective for annual accounting period starting from 1 January 2025 did not have any material impact on the accounting policies, financial position or performance of the Group.

2.3 STANDARDS ISSUED BUT NOT YET EFFECTIVE

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's consolidated financial statements are disclosed below. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

IFRS 18 Presentation and Disclosure in Financial Statements

In April 2025, the IASB issued IFRS 18, which replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the statement of profit or loss into one of five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new.

It also requires disclosure of newly defined management-defined performance measures, subtotals of income and expenses, and includes new requirements for aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements (PFS) and the notes.

In addition, narrow-scope amendments have been made to IAS 7 Statement of Cash Flows, which include changing the starting point for determining cash flows from operations under the indirect method, from 'profit or loss' to 'operating profit or loss' and removing the optionality around classification of cash flows from dividends and interest. In addition, there are consequential amendments to several other standards.

IFRS 18, and the amendments to the other standards, is effective for reporting periods beginning on or after 1 January 2027, but earlier application is permitted and must be disclosed. IFRS 18 will apply retrospectively.

The Group is currently working to identify all impacts the amendments will have on the primary financial statements and notes to the financial statements.

2.4 MATERIAL ACCOUNTING POLICY INFORMATION

Basis of consolidation

The consolidated financial statement comprises the financial statements of the Parent Company and subsidiary as at 31 December 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- ▶ Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- ▶ Exposure, or rights, to variable returns from its involvement with the investee
- ▶ The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- ▶ The contractual arrangement with the other vote holders of the investee
- ▶ Rights arising from other contractual arrangements
- ▶ The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

The consolidated financial statements of the Group include:

<i>Name</i>	<i>Country of incorporation</i>	<i>Principal activities</i>	<i>% equity interest</i>	
			<i>2025</i>	<i>2024</i>
Wafra Mena Capital SPC Ltd	Cayman Islands	Investment entity	100	100
Wafra Mena Capital SPC - Pure Harvest SP *	Cayman Islands	Investment entity	89	89
Wafra Mena Capital SPC - SARY SP *	Cayman Islands	Investment entity	73	73

*Wafra Mena Capital SPC Ltd being a segregated portfolio company include two segregated portfolios: Pure Harvest Segregated Portfolio and SARY Segregated Portfolio

Revenue recognition

Revenue is recognised either at a point in time or over time, when (or as) the Group satisfies performance obligations by transferring the promised goods or services to its customers.

Management fees and commission income

The Group earns management fees and commission income from a diverse range of financial services it provides to its customers. Management fees and commission income is recognised at an amount that reflects the consideration to which the Group expects to be entitled in exchange for providing the services.

2.4 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Revenue recognition (continued)

Management fees and commission income (continued)

The performance obligations, as well as the timing of their satisfaction, are identified, and determined, at the inception of the contract. The Group's revenue contracts do not typically include multiple performance obligations.

When the Group provides a service to its customers, consideration is invoiced and generally due immediately upon satisfaction of a service provided at a point in time or at the end of the contract period of a service provided over time.

The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the services before transferring them to the customer.

Interest income

Interest income is presented separately from revenue from contracts with customers in the consolidated statement of profit or loss and recognised over time and at it accrued using the effective interest rate method.

Dividend income

Dividend income is recognised when the right to receive payment is established.

Kuwait Foundation for the Advancement of Sciences (KFAS)

The Group calculates the contribution to KFAS at 1% of profit for the year, in accordance with the modified calculation based on the foundation's Board of Directors resolution, which states that the transfer to statutory reserve should be excluded from profit for the year when determining the contribution.

Zakat

Contribution to Zakat is calculated at 1% of the profit of the Group, in accordance with the Ministry of Finance resolution No. 58/2007 effective from 10 December 2007.

Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year by the weighted average number of ordinary shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit for the year (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

Cash and cash equivalents

Cash and cash equivalents in the consolidated statement of financial position comprise cash on hand, non-restricted cash at banks, cash held in investment portfolios and short-term deposits that are due within three months and convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, with original maturities of three months or less.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts (if any) as they are considered an integral part of the Group's cash management.

Term deposits

Term deposits represent deposits with banks due after three months from the placement date and earn interest.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

2.4 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Financial instruments (continued)

Financial assets

a) Recognition and initial measurement

Account receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. Account receivable without a significant financing component is initially measured at the transaction price.

b) Classification and subsequent measurement

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- ▶ it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- ▶ its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- ▶ it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- ▶ its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost, at FVOCI as at FVTPL if doing so eliminates, or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets – Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- ▶ the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- ▶ how the performance of the portfolio is evaluated and reported to the Group's management;
- ▶ the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- ▶ how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- ▶ the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity. Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

2.4 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Financial instruments (continued)

Financial assets (continued)

Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- ▶ contingent events that would change the amount or timing of cash flows;
- ▶ terms that may adjust the contractual coupon rate, including variable-rate features;
- ▶ prepayment and extension features; and
- ▶ terms that limit the Group’s claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets – Subsequent measurement and gains and losses

- ▶ Financial assets at FVTPL These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

- ▶ Financial assets at amortised cost These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

- ▶ Debt investments at FVOCI These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

- ▶ Equity investments at FVOCI These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

c) Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset. The Group enters into transactions whereby it transfers assets recognised in its consolidated statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

2.4 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Financial instruments (continued)

Financial liabilities

a) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include accounts payable and other accruals, lease liabilities.

b) Subsequent measurement

Accounts payable and other liabilities

Accounts payable and other liabilities are recognised for amounts to be paid in the future for services received, whether billed by the supplier or not.

c) Derecognition

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the consolidated statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Impairment of financial assets

The Group recognises an allowance for expected credit losses (ECLs) for all financial assets not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The Group applies a three-stage approach to measure the expected credit loss on bank balances and debt investments as follows:

Stage 1: 12 months ECL

For exposures where there has not been a significant increase in credit risk since initial recognition, the portion of the lifetime ECL associated with the probability of default events occurring within next 12 months is recognised.

Stage 2: Lifetime ECL – not credit impaired

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, a lifetime ECL is recognised.

Stage 3: Lifetime ECL – credit impaired

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred.

2.4 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Impairment of financial assets (continued)

For account receivables and other receivables, the Group has applied the simplified approach and has calculated ECLs based on lifetime expected credit losses. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the balances and the Group's economic environment.

The management considers a financial asset in default when the contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

Write-off of financial assets at amortised cost

The Group writes off a financial asset at amortised cost when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in the consolidated statement of profit or loss.

Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability; or
 - ▶ In the absence of a principal market, in the most advantageous market for the asset or liability
- The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's senior management determines the policies and procedures for recurring fair value measurement, such as unquoted equity investments.

The Group measures financial instruments such as investment in equity securities and mutual funds, at fair value at each reporting date. Fair-value related disclosures for financial instruments that are measured at fair value, including the valuation methods, significant estimates and assumptions are disclosed in Note 23.

2.4 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Investment in an associate

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control over those policies. The considerations made in determining significant influence are similar to those necessary to determine control over subsidiaries.

The Group's investment in its associate is accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment.

The consolidated statement of profit or loss reflects the Group's share of the results of operations of the associate. Any change in other comprehensive income of those investees is presented as part of the Group's other comprehensive income. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the consolidated statement of profit or loss and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired.

If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss as 'Share of profit of an associate' in profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

Property and equipment

Property and equipment including capital work in progress are stated at cost, net of depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property and equipment and borrowing costs for long-term construction projects if the recognition criteria are met.

Depreciation is provided on all property and equipment, except land and capital work in progress, at rates calculated to write off the cost of each asset on a straight-line basis to their residual values over its expected useful life which is between 3 to 5 years for all property and equipment.

The residual values, useful lives and methods of depreciation of property and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation of these assets commences when the assets are ready for their intended use.

2.4 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section Impairment of non-financial assets.

ii) Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate.

Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's or cash-generating unit's (CGU) recoverable amount is the higher of its fair value less costs to sell and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

For non-financial assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceeds the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the consolidated statement of profit or loss.

2.4 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) arising from a past event and it is probable that an outflow of economic benefits will be required to settle the obligation.

Employees' end of service benefits

The Group provides end of service benefits to all its employees. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

With respect to its national employees, the Group also makes contributions to Public Institution for Social Security calculated as a percentage of the employees' salaries. The Group's obligations are limited to these contributions, which are expensed when due.

Foreign currencies

Transactions in foreign currencies are recorded at the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the reporting date. All differences are taken to the consolidated statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of gain or loss on change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

Fiduciary assets

The Group provides trust and other fiduciary services that result in the holding or investing of assets on behalf of its clients. Assets held in a fiduciary capacity, unless recognition criteria are met, are not reported in the consolidated financial statements, as they are not assets of the Group.

Events after the reporting period

If the Group receives information after the reporting period, but prior to the date of authorisation for issue, about conditions that existed at the end of the reporting period, the Group will assess if the information affects the amounts that it recognises in the Group's financial statements. The Group will adjust the amounts recognised in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in the light of the new information. For non-adjusting events after the reporting period, the Group will not change the amounts recognised in its consolidated financial statements but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable.

3 ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities at the date of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognised in the consolidated financial statements:

Classification of investments

Classification of investments is based on management's intention at acquisition and requires considerable judgment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2025

3 ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Classification of financial assets

The Group determines the classification of financial assets based on the assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are also described in the individual notes of the related financial statement line items below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Impairment of investment in an associate

Investment in associates are accounted for under the equity method of accounting for associates, whereby these investments are initially stated at cost, and are adjusted thereafter for the post-acquisition change in the Group's share of the net assets of the associates less any impairment losses. The Group is required to assess, at each reporting date, whether there are indications of impairment. If such indications exist, the management estimates the recoverable amount of the associate in order to determine the extent of the impairment loss (if any). The identification of impairment indicators and determination of the recoverable amounts require management to make significant judgements, estimates and assumptions.

Impairment of financial assets at amortised cost

The Group assesses on a forward-looking basis the expected credit losses (ECL) associated with its debt instruments carried at amortised cost and FVOCI. For account receivables and other receivables, the Group applies a simplified approach in calculating ECL. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECL at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. Actual results may differ from these estimates.

Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible, but this is not always available. In that case, management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Other administrative expenses	788,794	752,367
	<u>6,152,978</u>	<u>5,969,575</u>

6 BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Parent Company for the year by the weighted average number of ordinary shares outstanding during the year. As there are no dilutive instruments outstanding, basic and diluted earnings per share are identical.

	<i>2025</i>	<i>2024</i>
Profit for the year attributable to equity holders of the Parent Company (KD)	<u>16,848,777</u>	<u>10,555,259</u>
Weighted average number of ordinary shares outstanding during the year (shares)	<u>150,000,000</u>	<u>150,000,000</u>
Basic and diluted earnings per share (fils)	<u>112.33</u>	<u>70.37</u>

7 CASH AND CASH EQUIVALENTS

	<i>2025</i> <i>KD</i>	<i>2024</i> <i>KD</i>
Bank balances	972,139	719,449
Short-term deposits	2,054,562	3,413,098
Call accounts	1,517,850	3,131,875
	<u>4,544,551</u>	<u>7,264,422</u>

Short-term deposits are denominated in both local and foreign currencies with maturities of three months or less and earn an average effective interest rate of 3.53% (2024: 3.89%) per annum. Call accounts are also denominated in both local and foreign currencies.

8 TERM DEPOSITS

Term deposits are denominated in both local and foreign currencies having contractual maturities of more than three months and earn an average effective interest rate ranging from 3.8% to 4.25% (2024: 3.85% to 5.1%) per annum.

9 ACCOUNT RECEIVABLES AND OTHER ASSETS

	<i>2025</i> <i>KD</i>	<i>2024</i> <i>KD</i>
Accrued management fees	3,833,303	3,225,805
Advance subscriptions *	-	28,322
Other assets	778,767	728,289
	<u>4,612,070</u>	<u>3,982,416</u>

* Advance paid for subscriptions in local and foreign securities.

10 INVESTMENT IN AN ASSOCIATE

Name of the associate	Country of incorporation	Effective equity interest %		Principal activities
		2025	2024	
Sanam Real Estate K.S.C.P. ("Sanam")	Kuwait	11.36 %	22.27%	Real estate

During the year, the Parent Company sold 11.5 million shares in Sanam for a total consideration of KD 2,488,171 resulting in a gain of KD 1,757,545. The Parent Company continues to retain the ability to exercise significant influence over Sanam despite the decrease in its equity interest by 10.91% and continued to equity account in accordance with IAS 28: *Investments in Associates and Joint Ventures*.

The following table illustrates the summarised financial information of the associate. The information disclosed reflects the amounts presented in the financial statements of the associate and not the Group's share of these amounts.

	2025 KD	2024 KD
Current assets	9,846,394	2,872,197
Non-current assets	14,967,819	8,943,691
Current liabilities	(487,409)	(262,439)
Non-current liabilities	(93,008)	(152,164)
Equity	24,233,796	11,401,285
Group's share in equity	2,752,959	2,539,758
Impairment losses	(584,970)	(1,136,772)
Group's carrying amount	2,167,989	1,402,986
Revenue	2,301,724	1,011,906
Profit for the year	2,127,121	701,028
Group's share of profit for the year	241,641	156,138
Group's share of other equity movement	1,851	(400)

As at 31 December 2025, the fair value of the Group's interest in Sanam, which is listed in Bursa Kuwait (based on quoted market price) was KD 5,185,502 (2024: KD 5,004,643). During the current year, Group disposed 11,457,260 shares (2024: 2,131,081 shares) of the associate for a total consideration of KD 2,488,171 (2024: 440,340) resulting in a realised gain of KD 1,757,545 (2024: 333,407).

A reconciliation of the above summarised financial information to the carrying amount of the associate is set out below:

Reconciliation to carrying amounts:

	2025 KD	2024 KD
As at 1 January	1,402,586	1,353,781
Additional capital contribution	1,252,537	-
Partial disposal	(730,626)	(106,933)
Share of result	241,641	156,138
Share of other equity movement	1,851	(400)
As at 31 December	2,167,989	1,402,586

14 SHARE CAPITAL

Authorized, issued and fully paid up share capital consists of 150,000,000 (2024: 150,000,000) shares of 100 fils (2024: 100 fils) each. All shares were paid in cash.

15 STATUTORY RESERVE

In accordance with the Companies' Law, and the Parent Company's Memorandum of Incorporation and Articles of Association, a minimum of 10% of the profit for the year attributable to equity holders of the Parent Company before tax and board of directors' remuneration shall be transferred to the statutory reserve based on the recommendation of the Parent Company's board of directors. The annual general assembly of the Parent Company may resolve to discontinue such transfer when the reserve exceeds 50% of the issued share capital. The reserve may only be used to offset losses or enable the payment of a dividend up to 5% of paid-up share capital in years when profit is not sufficient for the payment of such dividend due to absence of distributable reserves.

Any amounts deducted from the reserve shall be refunded when the profits in the following years suffice, unless such reserve exceeds 50% of the issued share capital.

16 VOLUNTARY RESERVE

In accordance with the Companies' Law, and the Parent Company's Memorandum of Incorporation and Articles of Association, a maximum of 10% of the profit for the year attributable to equity holders of the Parent Company before tax and board of directors' remuneration is required to be transferred to the voluntary reserve. Such annual transfers may be discontinued by a resolution of the shareholders' general assembly upon a recommendation by the Board of Directors. There are no restrictions on the distribution of this reserve.

17 DIVIDEND DISTRIBUTION

	<i>2025</i>	<i>2024</i>
	<i>KD</i>	<i>KD</i>
Cash dividends on ordinary shares declared and paid:		
Final dividend for 2024: 27.5 fils per share (2023: 20 fils per share)	<u>4,125,000</u>	<u>3,000,000</u>

The shareholders at AGM held on 25 May 2025 approved the proposed dividend for the year ended 31 December 2024, which have been paid on 29 May 2025.

Proposed dividends on ordinary shares:

Proposed cash dividend for 2025: 20 fils per share (2024: 27.5 fils per share)	<u>3,000,000</u>	<u>4,125,000</u>
--	-------------------------	------------------

The Board of Directors in their meeting held on 4 February 2026, proposed a cash dividend of 20% (2024: 27.5%) of the paid-up share capital, amounting to KD 3,000,000 (2024: KD 4,125,000) for the year ended 31 December 2025. Proposed dividends on ordinary shares are subject to approval at the annual general assembly meeting and are not recognised as a liability as at 31 December.

Wafra International Investment Company K.S.C. (Closed) and subsidiary

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2025

18 FIDUCIARY ASSETS

In the normal course of business, the Parent Company carries out investment management and custody services on behalf of others. As at 31 December 2025, the value of fiduciary assets amounted to KD 3,994,002,359 (2024: KD 3,493,732,071) of which KD 3,782,478,577 (2024: KD 3,304,010,174) relates to the Ultimate Parent Company (Note 19). Fiduciary assets are excluded from the consolidated statement of financial position of the Group.

Income earned from fiduciary assets amounted to KD 14,536,126 for the year ended 31 December 2025 (2024: KD 12,423,875).

19 RELATED PARTY DISCLOSURES

Related parties represent major shareholders, associates, directors and key management personnel of the Group, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Parent Company's management. Transactions with related parties are as follows:

	<i>Ultimate Parent Company KD</i>	<i>Other related parties KD</i>	<i>2025 KD</i>	<i>2024 KD</i>
Consolidated statement of profit or loss:				
Management fees income	12,997,675	109,607	13,107,282	11,542,286

Fiduciary assets managed on behalf of related parties	3,782,478,577	47,763,285	3,830,241,862	3,378,568,640

Terms and conditions of transactions with related parties

There have been no guarantees provided or received for any related party receivables or payables. For the year ended 31 December 2025, the Group has not recognised any allowance for expected credit losses relating to amounts owed by related parties. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

Transactions with key management personnel

Key management personnel comprise of the Board of Directors and key members of management having authority and responsibility for planning, directing and controlling the activities of the Group. The aggregate value of transactions related to key management personnel were as follows.

	<i>2025 KD</i>	<i>2024 KD</i>
Salaries and other short-term benefits	876,809	951,768
Employees' end of service benefits	122,151	71,291
	<u>998,960</u>	<u>1,023,059</u>

The Board of Directors of the Parent Company proposed a directors' remuneration of KD 168,564 for the year ended 31 December 2025 (2024: KD 142,000). This proposal is subject to the approval of the shareholders at the AGM.

Directors' remuneration for prior year was approved by shareholders at AGM held on 29 May 2025.

20 COMMITMENTS AND CONTINGENCIES

Commitments

As at 31 December 2025, the Group had commitment to an investment amounting to KD 399,748 (2024: 660,402).

Contingent liabilities

As at 31 December 2025, the Group had contingent liabilities in respect of bank guarantees provided in the ordinary course of business amounting to KD 200,000 (2024: KD 200,000).

21 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial liabilities comprise of accounts payables, lease liabilities which arise from the Group's operations in normal course of business. The main objective of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include financial assets at fair value through profit and loss, financial assets at fair value through other comprehensive income, receivables, term deposits and cash and cash equivalents in normal course of business that derive directly from its operations. The Group also holds investments in equity instruments and bonds.

The Group is exposed to market risk (including foreign currency risk, interest rate risk and equity price risk), credit risk and liquidity risk. The Parent Company's senior management oversees the management of these risks. The Parent Company's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board of Directors has established the risk management committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the board of directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Parent Company's Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

21.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instruments affected by market risk include deposits, debt and equity investments.

a) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group incurs foreign currency risk on transactions denominated in a currency other than the KD. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency).

The Group currently does not use financial derivatives to manage its exposure to currency risk. The Group manages its foreign currency risk based on the limits determined by management and a continuous assessment of the Group's open positions, current and expected exchange rate movements. The Group ensures that its net exposure is kept to an acceptable level, by dealing in currencies that do not fluctuate significantly against the KD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2025

21 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

21.1 Market risk (continued)

a) Foreign currency risk (continued)

The following tables set out the Group's exposure to significant foreign currency exchange rates on monetary financial assets and liabilities at the reporting date:

Currency	<i>Net exposure</i>	
	<i>2025</i>	<i>2024</i>
	<i>KD</i>	<i>KD</i>
US Dollar (USD)	54,333,265	51,109,903
EURO (EUR)	2,436,567	2,181,565
Emirati Dirham (AED)	212,795	638,828
Saudi Riyal (SAR)	15,190,745	14,598,389

Foreign exchange rate sensitivity

The following tables demonstrate the effect of a reasonably possible change in the aforementioned exchange rates, with all other variables held constant.

The impact on the Group's profit due to changes in the fair value of monetary assets and liabilities is as follows:

Currency	% Change in exchange rate	<i>Effect on results</i>	
		<i>2025</i>	<i>2024</i>
		<i>KD</i>	<i>KD</i>
USD	+ 5%	2,716,663	2,555,495
	- 5%	(2,716,663)	(2,555,495)
EUR	+ 5%	121,828	109,078
	- 5%	(121,828)	(109,078)
AED	+ 5%	10,640	31,941
	- 5%	(10,640)	(31,941)
SAR	+ 5%	759,537	729,919
	- 5%	(759,537)	(729,919)

There has been no change in the methods and the assumptions used in the preparation of the sensitivity analysis.

An equivalent decrease in each of the aforementioned currencies against the KD would have resulted in an equivalent but opposite impact.

b) Interest rate risk

The Group is exposed to interest risk on short term deposits and call accounts which mature or reprice in the short-term, no longer than twelve months. The effective average interest rates are disclosed in Notes 7, 8 and 12. As a result, the Group is subject to limited exposure to interest rate risk due to fluctuations in the prevailing levels of market interest rates. The sensitivity of Group's profit in the consolidated statement of profit or loss as a result of changes in floating interest rates, on financial assets and financial liabilities held at 31 December 2025 and 2024 would not be material.

c) Equity price risk

The Group's exposure to equity securities price risk arises from investments held by the Group and classified as at fair value through other comprehensive income (FVOCI) or at fair value through profit or loss (FVTPL) (Note 11). The Group's listed and non-listed equity investments are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Parent Company's senior management on a regular basis. The Group's investment executive committee reviews and approves all equity investment decisions.

At the reporting date, the exposure to non-listed equity investments at fair value was KD 11,137,872 (2024: KD 12,942,251). Sensitivity analyses of these investments have been provided in Note 23.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2025

21 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

21.1 Market risk (continued)

c) Equity price risk

The Group's listed equity investments are publicly traded and are included either in the Kuwait Stock Exchange ("Boursa Kuwait"), GCC markets or other markets.

The table below summarises the impact of increases/decreases of these price indexes on the Group's equity for the period. The analysis is based on the assumption that the equity indexes had increased or decreased by 5% and 5% respectively, with all other variables held constant, and that all the Group's equity instruments moved in line with the indexes.

2025

Market indices	% change in equity price	Effect on results KD	Effect on OCI KD
Boursa Kuwait	+ 5%	3,229	266,362
	- 5%	(3,229)	(266,362)
GCC markets	+ 5%	-	461,565
	- 5%	-	(461,565)
Other markets	+ 5%	-	1,220,888
	- 5%	-	(1,220,888)

2024

Market indices	% change in equity price	Effect on results KD	Effect on OCI KD
Boursa Kuwait	+ 5%	3,776	368,937
	- 5%	(3,776)	(368,937)
GCC markets	+ 5%	22,019	845,658
	- 5%	(22,019)	(845,658)
Other markets	+ 5%	-	923,914
	- 5%	-	(923,914)

21.2 Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities, including cash at banks and other financial instruments. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets as follows:

	2025 KD	2024 KD
Cash and cash equivalents	4,544,551	7,264,422
Term deposits	12,309,441	7,301,660
Accounts receivable and other assets (excluding prepayments and other advances)	4,520,508	3,863,005
Debt investments at FVOCI	-	1,522
Debt investments at FVPL	78,498	273,901
Financial assets at amortised cost	11,369,243	10,297,358
Credit exposure on assets	32,822,241	29,001,868

Cash and cash equivalents and term deposits

Credit risk from balances with banks and financial institutions is limited because the counterparties are reputable financial institutions with appropriate credit-ratings assigned by international credit-rating agencies. Further, the principal amounts of deposits in local banks (including saving accounts and current accounts) are guaranteed by the Group.

The Group considers that its cash and cash equivalents and term deposits have low credit risk based on the external credit ratings of the counterparties.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2025

21 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

21.2 Credit risk (continued)

Accounts receivable and other assets

The Group uses a provision matrix based on the Group's historical observed default rates to measure the ECLs of account receivables from individual customers, which comprise a very large number of small balances. The Group assumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 365 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Generally, accounts receivables are written-off if past due for more than one year and are not subject to enforcement activity. The Group does not hold collateral as security. As a result, the impact of application of the expected credit risk model at reporting date was immaterial.

Debt investments and financial assets at amortised cost

Debt instruments at FVOCI and amortised cost are subject to the impairment requirements of IFRS 9. Management has computed the expected credit losses (ECL) based on the three-stage approach to measure the ECL. The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. Accordingly, management has recorded charge of ECL amounting to KD 2,790 (2024: KD 100,540) for the year then ended.

21.3 Concentration of financial assets

The distribution of financial assets by geographic region for 2025 and 2024 is as follows:

	<i>State of Kuwait KD</i>	<i>International KD</i>	<i>GCC KD</i>	<i>Total KD</i>
2025				
Cash and cash equivalents	3,586,699	820,615	137,237	4,544,551
Term deposits	12,309,441	-	-	12,309,441
Account receivables and other assets	4,253,031	111,754	155,723	4,520,508
Debt investments at FVPL	78,498	-	-	78,498
Financial assets at amortised cost	11,369,243	-	-	11,369,243
Credit exposure on assets	<u>31,596,912</u>	<u>932,369</u>	<u>292,960</u>	<u>32,822,241</u>
2024				
Cash and cash equivalents	4,536,673	2,605,849	121,900	7,264,422
Term deposits	4,253,112	3,048,548	-	7,301,660
Account receivables and other assets	3,535,226	296,048	31,731	3,863,005
Debt investments at FVOCI	-	-	1,522	1,522
Debt investments at FVPL	273,901	-	-	273,901
Financial assets at amortised cost	10,297,358	-	-	10,297,358
Credit exposure on assets	<u>22,896,270</u>	<u>5,950,445</u>	<u>155,153</u>	<u>29,001,868</u>

21.4 Liquidity risk

Liquidity risk is defined as the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk arises because of the possibility that the Group might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances. Such scenarios could occur when funding needed for illiquid asset positions is not available to the Group on acceptable terms. To limit this risk, management has arranged for diversified funding sources in addition to its core deposit base and adopted a policy of managing assets with liquidity in mind and monitoring future cash flows and liquidity on an ongoing basis. The Group has developed internal control processes and contingency plans for managing liquidity risk. This incorporates an assessment of expected cash flows and the availability of high grade collateral which could be used to secure additional funding if required.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2025

21 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

21.4 Liquidity risk (continued)

The Group maintains a portfolio of highly marketable and diverse assets that are assumed to be easily liquidated in the event of an unforeseen interruption in cash flow.

The table below summarises the maturity profile of the undiscounted cash flows of the Group's financial liabilities as at 31 December:

	<i>Within 3 months KD</i>	<i>3 months to 1 year KD</i>	<i>More than 1 year KD</i>	<i>Total KD</i>
2025				
Account payables and other accruals	1,927,144	1,350,898	-	3,278,042
Lease liabilities	66,180	170,370	454,920	691,470
	<u>1,993,324</u>	<u>1,521,268</u>	<u>454,920</u>	<u>3,969,512</u>
2024				
Account payables and other accruals	1,793,943	1,360,356	-	3,154,299
Lease liabilities	78,976	232,174	597,652	908,802
	<u>1,872,919</u>	<u>1,592,530</u>	<u>597,652</u>	<u>4,063,101</u>

22 MATURITY ANALYSIS OF ASSETS AND LIABILITIES

The table below shows an analysis of assets and liabilities analysed according to when they are expected to be recovered or settled. Trading assets and liabilities have been classified to mature and/or be repaid within 12 months, regardless of the actual contractual maturities of the products.

	2025		<i>Total KD</i>
	<i>Within 12 months KD</i>	<i>After 12 months KD</i>	
ASSETS			
Cash and cash equivalents	4,544,551	-	4,544,551

23 FAIR VALUE MEASUREMENT

Fair value hierarchy

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2025

23 FAIR VALUE MEASUREMENT (continued)

23.1 Financial instruments

The following tables provide the fair value measurement hierarchy of the Group's financial assets:

	Fair value measurement using			Total KD
	Quoted prices in active markets	Significant observable inputs	Significant unobservable inputs	
	Level 1 KD	Level 2 KD	Level 3 KD	
2025				
<i>Assets measured at fair value:</i>				
Financial assets at FVPL				
- Quoted funds	5,288,429	-	-	5,288,429
- Quoted shares	64,579	-	-	64,579
- Unquoted funds	-	49,257,709	6,251,832	55,509,541
- Unquoted shares	-	-	841,412	841,412
- Unquoted debt	-	-	78,498	78,498

- Unquoted debt securities	-	-	273,901	273,901
Financial assets at FVOCI				
- Quoted equity securities	42,770,183	-	-	42,770,183
- Quoted debt securities	1,522	-	-	1,522
- Unquoted equity securities	-	-	10,424,758	10,424,758
	<u>43,287,615</u>	<u>47,597,673</u>	<u>13,216,152</u>	<u>104,101,440</u>

Transfers between Level 1 and Level 2

There were no transfers between levels 1 and 2 for recurring fair value measurements during the year.

Movements in Level 3 financial instruments measured at fair value

The Group further assessed the need for transfers between levels in the hierarchy given the changes in economic conditions and considering whether a lack of observable information existed for factors relevant to the value of certain instruments. As of 31 December 2025, financial assets at FVTPL and FVOCI with a carrying amount of KD 3,045,802 (2024: KD 3,045,802) and KD 3,562,012 (2024: KD 3,562,012) were transferred to level 3 from level 2 and level 1 respectively since fair value was not based on observable inputs and quoted price in the market was no longer available.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2025

23 FAIR VALUE MEASUREMENT (continued)

23.1 Financial instruments (continued)

Management assessed that the fair value of the following financial assets and liabilities approximate their carrying amounts:

- ▶ Cash and cash equivalents
- ▶ Accounts receivables and other assets
- ▶ Other financial assets at amortised cost
- ▶ Accounts payable and other accruals

Valuation methods and assumptions

The following methods and assumptions were used to estimate the fair values:

Listed investment in equity and debt securities

Fair values of publicly traded equity and debt securities are based on quoted market prices in an active market for identical assets without any adjustments. The Group classifies the fair value of these investments as Level 1 of the hierarchy.

Unlisted equity investments

The Group invests in private equity companies that are not quoted in an active market. Transactions in such investments do not occur on a regular basis. The Group uses a market-based valuation technique for the majority of these positions. The Group determines comparable public companies (peers) based on industry, size, leverage and strategy, and calculates an appropriate trading multiple for each comparable company identified. The trading multiple is then discounted for considerations such as illiquidity and size differences between the comparable companies based on company-specific facts and circumstances. The discounted multiple is applied to the corresponding earnings measure of the investee company to measure the fair value. The Group classifies the fair value of these investments as Level 3.

Unlisted mutual funds

The Group invests in managed funds, including private equity funds, which are not quoted in an active market and which may be subject to restrictions on redemptions such as lock up periods. The management considers the valuation techniques and inputs used in valuing these funds as part of its due diligence prior to investing, to ensure they are reasonable and appropriate. Therefore, the net asset value (NAV) of these investee funds may be used as an input into measuring their fair value. In measuring this fair value, the NAV of the funds is adjusted, as necessary, to reflect restrictions on redemptions, future commitments, and other specific factors of the investee fund and fund manager. In measuring fair value, consideration is also paid to any transactions in the shares of the investee fund. Depending on the nature and level of adjustments needed to the NAV and the level of trading in the investee fund, the Group classifies these funds as Level 2.

Reconciliation of Level 3 fair values

The following table shows a reconciliation of all movements in the fair value of items categorised within Level 3 between the beginning and the end of the reporting period:

	<i>Debt</i>		<i>Equity</i>	
	<i>2025</i>	<i>2024</i>	<i>2025</i>	<i>2024</i>
	<i>KD</i>	<i>KD</i>	<i>KD</i>	<i>KD</i>
<i>Unquoted equity shares at FVTPL</i>				
At the beginning of the year	273,901	272,701	2,517,493	3,993,042
Net purchases /additions	35,295	-	2,289,375	25,334
Transfers from level 2	-	-	3,045,802	-
Change in fair value	(230,698)	1,200	(759,426)	(1,500,883)
At the end of the year	<u>78,498</u>	<u>273,901</u>	<u>7,093,244</u>	<u>2,517,493</u>
<i>Unquoted equity shares at FVOCI</i>				
At the beginning of the year			10,424,758	10,961,717
Net sale			-	(518,839)
Transfers from level 1			3,562,012	-
Change in fair value			(3,690,310)	(18,120)
At the end of the year			<u>10,296,460</u>	<u>10,424,758</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2025

23 FAIR VALUE MEASUREMENT (continued)

Description of significant unobservable inputs to valuation:

The significant unobservable inputs used in the fair value measurements categorised within Level 3 of the fair value hierarchy, together with a quantitative sensitivity analysis as at 31 December are as shown below:

	<i>Valuation technique</i>	<i>Significant unobservable inputs</i>	<i>Range</i>	<i>Sensitivity of the input to fair value</i>
Unquoted equity shares	Market approach	Discount for lack of marketability (DLOM)	20% - 100%	Increase (decrease) in DLOM would decrease (increase) the fair value.
Unquoted equity shares	Income Approach	Discount Factor	11.21%	Increase (decrease) in Discount Factor would decrease (increase) the fair value.
Unquoted equity shares (foreign)	Market approach	EV/ Revenue multiple	2.1x	Increase (decrease) in EV/ Revenue multiple would increase (decrease) the fair value.
Unquoted equity shares (foreign)	Market approach	Gross Merchandise Value (“GMV”) multiple	1x	Increase (decrease) in GMV multiple would increase (decrease) the fair value.

The discount for lack of marketability represents the amounts that the Group has determined that market participants would take into account when pricing the investments.

24 CAPITAL MANAGEMENT

The primary objective of the Group 's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may review the dividend payment to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 31 December 2025 and 31 December 2024. Capital comprises share capital and all other equity reserves (excluding statutory reserve) and is measured at KD 121,712,496 as at 31 December 2025 (2024: KD 112,004,565).

In addition to the above, the adequacy of the Group’s capital is monitored using, the rules and ratios established by the Capital Markets Authority in supervising the Company.

As of the reporting date, the Group is in compliance with minimum required regulatory capital adequacy ratio for the year ended 31 December 2025 and 31 December 2024 in accordance with provisions of Module seventeen (Capital Adequacy Regulations for Licensed Persons) of the Executive Bylaws of Law No. (7) of 2010 and their amendments thereto.
